

2024 Community Benefit Report

At Monroe County Medical Center, we take pride in being engaged with our community partners to enhance health and quality of life in our community. With the help of dedicated physicians, employees, and board members, along with your ongoing support and encouragement, we are committed to always striving for excellence.

We began shifting some of our efforts to add more medical providers and services in our community and also to increase our involvement in community-oriented activities to bring attention to healthier lifestyles and outcomes. We have been able to successfully complete activities around these two items, while continuing to maintain our focus on strengthening the quality of care being provided close to home.

There are other ways we make a positive impact on the communities we serve, including:

Charity and other uncompensated care		\$	516,536
Includes unpaid cost of Medicaid as well as charity and other uncompensated care			
Community benefit programs		\$	71,946
Community health improvements	\$ 18,750		
Health professions education	\$ 0		
Subsidized health services	\$ 53,376		
2024 Total		\$	588,482

With an annual payroll of \$11,710,526 covering 226 employees, Monroe County Medical Center is one of the largest employers in Monroe County. This means our staff and family members attend many of the same schools, shop at the same stores, and volunteer their time and resources for the same organizations as you do.

With your support, we can continue expanding healthcare services offered locally while making the communities we call home healthier places to live. On behalf of our entire team, thank you for trusting us with your healthcare needs.

Andrea McLerran, CEO
